

Medical Camps

IAMR organises free physiotherapy camps for people suffering from complex diseases like paralysis, sciatica, nerve problems fracture, arthritis or disc pain L.B.A. etc The camps focused to sensitize the beneficiaries regarding the various health problems that gradually develop as a result of faulty postural habits and to screen the patients requiring further referral. Onsite physiotherapy treatment sessions using modern equipment was provided to the patients and home regime exercise were demonstrated to the patients.

About us

IAMR physiotherapy is an endeavor to provide allied health professionals to the nation. IAMR started Bachelor of Physiotherapy (BPT) in the year 2000. In a span of 22 year, it has advanced tremendously to be regarded as a pioneer institute of physiotherapy in north India by virtue of its quality of education and rehabilitation services. In 2003 IAMR moved ahead to start master's program in physiotherapy. IAMR is first institute to introduce MPT in Uttar Pradesh.

Physiotherapy

"Physiotherapy" means therapeutic system of medicine which includes prevention, examination, diagnosis and treatment to any person on connection with movement dysfunction, bodily malfunction, physical & mental disorders, disability, healing & pain from trauma and disease, using exercises like mobilization, manipulation and physical agents like heat, sound, light, water and currents.

Scope of physiotherapy

- ♦ WHO has recommended that for every **ten thousand** people there should be one physiotherapist. This reflects the vast scope of physiotherapy in India and Abroad.
- ♦ Every government, private and corporate hospital has a well equipped, advanced and full fledged department of physiotherapy.
- ♦ Physiotherapist can work in various educational set ups like graduate and post graduate colleges of physiotherapy, special schools, research & development centres.
- ♦ Physiotherapists can have their own clinical practices.
- ♦ Every sports team requires a skilled physiotherapist. Physiotherapists are in great demand in sports/athletic complexes and stadiums.
- ♦ Physiotherapist can also work in rehabilitation centres, geriatric centres, yoga, fitness and slimming centres.
